

TOWARDS FUTURE RESEARCH ON SPACE WEATHER DRIVERS

2-7 July 2019, San Juan, Argentina

<http://www.iafe.uba.ar/freswed2019/>

- Dynamic events determining space weather conditions
- Large scale corona and solar wind models
- Interplanetary counterparts of solar activity
- Tools and simulations for space weather forecasting
- Science with total solar eclipses
- Instrumentation with space weather applications

Scientific Organizing Committee

- Cristina Mandrini (**Chair**)
- Hebe Cremades (**Chair**)
- Dipankar Banerjee
- Peng Fei Chen
- Alisson Dal Lago
- Guillermo Giménez de Castro
- Silvina Guidoni
- Maria Kuznetsova
- Marcelo López Fuentes
- Dalmiro Maia
- Michael Marsh
- Teresa Nieves-Chinchilla
- Luciano Rodríguez

Local Organizing Committee

- Carlos Francile (**Chair**)
- Laura Balmaceda
- José Castro
- Germán Cristiani
- Fernando López
- Marcelo López Fuentes
- Natalia Nuñez
- Ricardo Podestá
